

Information on the allocation of a slot pool at Paris-Orly airport for S27

05/11/2026

COHOR
AIRPORT COORDINATION, FRANCE

Following the loss of historical precedence for slots previously held by certain airlines operating at Paris-Orly Airport (ORY), as well as the decision by other operators to not operate at the airport, a pool of **4,368** slots became available for reallocation.

COHOR, the coordinator of Paris-Orly Airport, allocated the entire pool on an annual basis as part of the regular initial slot submission process for the Summer 2027 scheduling season (S27).

Legal References

- EU regulation 95/93 Article 2 (b) : Definition of new entrant
- EU regulation 95/93 Article 10.6 :
  - 50% of the slots placed in the pool shall first be allocated to new entrants, 50% to other carriers
  - Among requests from new entrants, preference shall be given to air carriers qualifying for new entrant status under Article 2 (b)(i) and/or (ii) and Article 2 (b)(i) and (iii).

These slots are allocated on an annual basis and are based on submissions received for the Summer 2027 scheduling period (S27). However, carriers which are now receiving slots from this pool and willing to start their operations during the present Winter 2026-2027 scheduling period (W26) could be allowed to do so.

These carriers will be allocated the slots required to maintain their year-round services during the upcoming Winter 2027 scheduling season (W27), provided that they effectively commence their new services during the Summer 2027 scheduling season (S27) and duly confirm their requests for year-round operations by the initial submission deadline for W27.

Furthermore, in the event of withdrawal of one or more beneficiaries by the HBD (31st of January 2027), COHOR could reallocate the corresponding slots to one or more other candidates on the list.

ABOUT COHOR

COHOR (Association pour la Coordination des Horaires) is an independent, non-profit organization governed by the French law of July 1, 1901. Officially registered in the Journal Officiel on July 29, 1995, COHOR oversees the allocation of airport slots, monitors their usage, and provides statistical reporting.
